Mission Statement

We commit ourselves to complete the projects on or before the schedule time within the approved budget and as per the quality standards set by the FREE EAGLE'S Client and International Associates. We will understand the requirements of our customer, and will comply with those requirements at all times. We will work towards serving our customers with most cost effective services to bring environmental and economic benefits to the customer, the community and the Emirate of Abu Dhabi as a whole.

Vision

We will be the Customers Preferred Choice. We believe in continuously improving our processes and quality standards and will keep striving for this so as; FREE EAGLE is recognized as a leader in the industry.

FREE EAGLE

General Contracting LLC

Background

Free Eagle was established in 2010 as a surveying, Contracting Company and now it is one of the leading organizations in the field of Land, Geophysical Surveys, GIS Services and as well as providing Building Materials.

Free Eagle has been working with the major government entities in the Middle-East & Gulf regions during the past Five years and has gained a thorough understanding of the various rules and standards applicable to them; namely Abu Dhabi Water and Electricity (ADWEA), Abu Dhabi Municipality (ADM), Town Planning Department (TPD), Abu Dhabi Sewerage Services Company (ADSSC) etc.

Free Eagle is using products of number one leading firm in providing GIS technologies and solution.

Free Eagle uniqueness is its personnel. It consists of nearly 50 highly qualified and experienced manpower to serve its client in an efficient and professional way. Our operations are carried out through its various operating sections. A supervisory staff specialist, with many years of experience in the relevant discipline, heads each of the operating departments.

Free Eagle has the latest proven equipment to be used in the field and most cost effective technologies in the office to provide our clients with the most cost effective surveying, geophysical, GIS services and Building Materials in the region.

Free Eagle Services

- **GIS Services**
- **Land Surveys**
- **Geophysical**
- **Contracting Services**
- **Building Materials**

GIS Services Division

Free Eagle provides GIS Services, GIS Mapping services, and GIS Data conversions Services. Our GIS services Division offer the visualization of geographic data, analysis of spatial relationships, and efficient data management. GIS data conversions allow data from different sources to be merged in one common format, which allows for easy access, analysis and utilization.

Based on paper or electronic data either captured by our customers or otherwise collected, **Free Eagle** undertakes GIS data conversions and prepares electronic maps using Geographic Information Systems (GIS) technology.

FREE EAGLE

General Contracting LLC

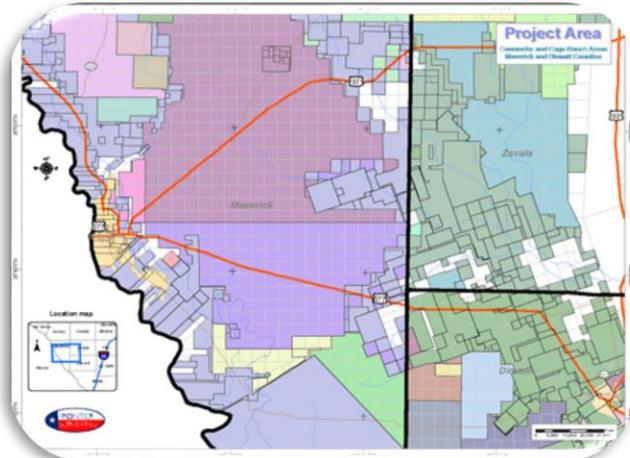

By integrating GIS, Computer Aided Design (CAD) and Global Positioning Systems (GPS), using high-end GIS Mapping and GIS data conversions software's, our GIS Services Division assist our customers in producing maps including contour maps, spatial maps, atlas maps, cadastral maps, thematic and zonal maps, landscape maps, environmental maps for host industries such as mining, utility sector, agriculture, petroleum pipelines, town planning, and other GIS Mapping companies and GIS Remote Sensing companies

Free Eagle offers GIS services with a comprehensive solution for spatial data management to government and industrial organizations through comprehensive GIS Consultancy Services. Our complex GIS Mapping Services includes capturing, storing, integrating, manipulating, analyzing, and displaying data related to positions on the Earth's surface.

While providing GIS Mapping Services, **Free Eagle** maintains a commitment to state-of-the-industry technology, research and innovation, implemented by highly experienced and qualified staff.

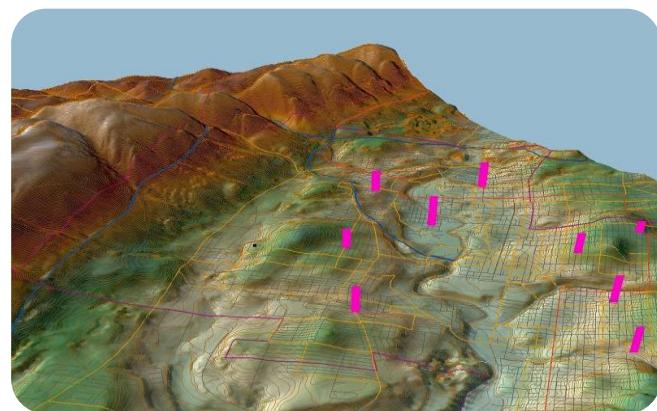

Data Conversion and Development Services

- Data Conversion Specifications
- Document flow control
- Supervision of data conversions
- Problem Resolution Procedures
- Data Capture from hardcopy procedure
- CAD to GIS Conversion procedure.
- Preparation of QA/QC policies and procedures.
- Data Entry Services including keyboard data entry, digitizing, scanning, coordinated geometry(COGO), Global Positioning Systems (GPS) and other data entry means.

Map Production Services

- GIS Data editing including correcting errors and verifying results both in vector and raster format
- Structuring GIS Data
- Converting Data format and changing map details. Data Migration

Our Market Focus

Free EagleGIS Services Division brings to any projects the depth of experience and expertise of its staff in GIS technology, 3D Modeling, database design and development. Since the inception, the GIS Services Division has been expanding in knowledge, expertise, space, equipment and staff.

Free Eagle long years of experience in Topographic, & Geophysical Surveys, production of maps and drawings have made GIS a natural extension of its services. FreeEagle is experienced in a wide variety of GIS works and we make sure that our clients receive the maximum benefits of today's technology forum. Below is only an example though the information can almost be limitless

- Asset Management (AM) / Facilities Management (FM)
- Structure Data, Location Reference, Last Inspection Date, Last Inspection Rating
- Cable Television Infrastructure
- Demographic Analysis
- Emergency Planning
- Environmental Analysis
- Fire Hazard Locations
- Forest Fire Control
- Forest Management
- Hazardous Materials Inventory
- Hydrology and Water Resources Development
- Land Management
- Natural Resources Management
- Banking and Insurance
- Public Utilities
- Real Estate Analysis
- Retail Site Selection
- Road Design and Development
- Soil & Water Analysis
- State/ Local Government Jurisdictions
- Storm Drain Management
- Telephone Cable Routing
- Transportation Planning and Management
- Zone Map / Street Inventory

FREE EAGLE

General Contracting LLC

Free Eagle Specialist Skills and Capabilities include:

Land Survey

Free Eagle has a very experienced Geodetic Engineers, Surveyors, Cartographers, Survey Technicians in the department of land survey. We own a sufficient quantity of latest surveying equipment like GPS, Total Station & Auto level machine to carry out the survey activities. Our services in Land Survey field include:

- Land surveying & Mapping
- Topographical Mapping
- As-Built Survey
- Engineering & Construction Surveying
- Control Network Establishing
- Digital Mapping & Remote Sensing
- GPS and Control Networks
- Static Surveying
- Plot Demarcation
- Supplying of Survey Crew

FREE EAGLE

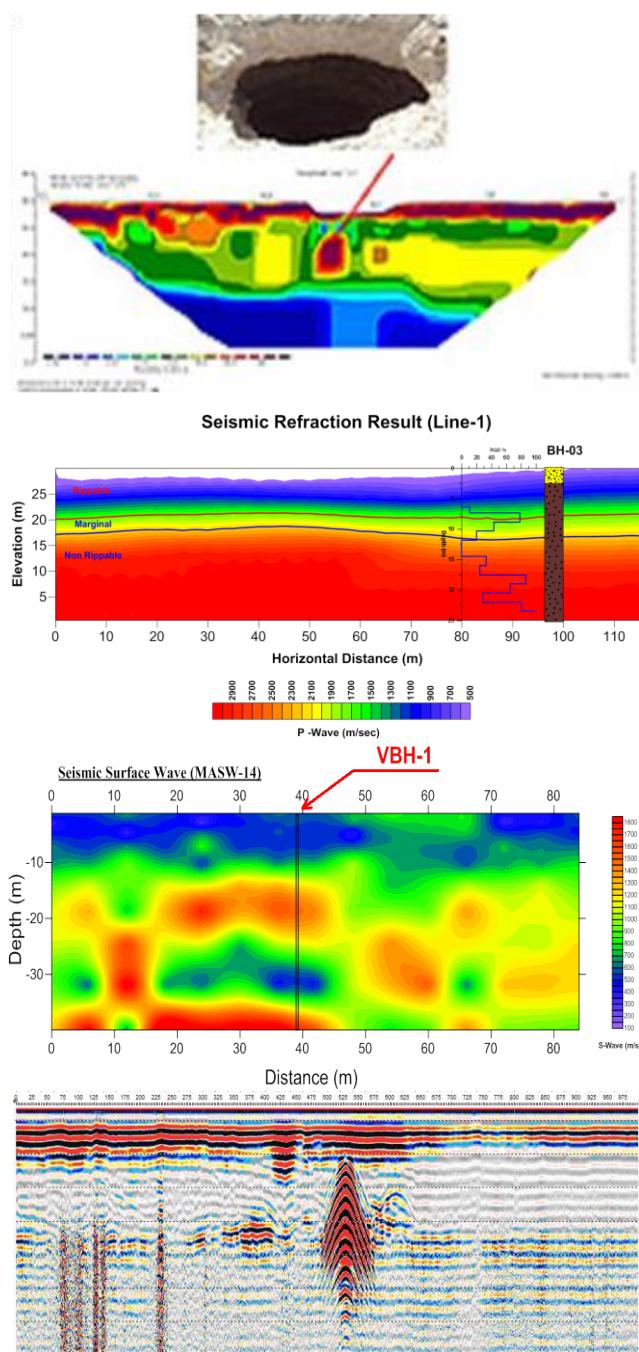

General Contracting LLC

Geophysical Survey Services:

In terms of Geophysical surveys Free Eagle have expertise in cavities and utilities investigation, Geophysical expertise includes Electrical Resistivity Tomography (ERT), Ground Penetration Radar (GPR) Services, Electromagnetic (EM) Surveying, Cross hole and down hole tomography, Multi-Channel analysis of Surface waves data acquisition begins with meticulous survey planning. The critical information we gather includes survey purpose, survey area specifics, target type, estimated depth to target, background geologic information, field and final products required and scheduling requirements. Using sophisticated hardware's and software's systems, Free Eagle acquires high resolution ERT, GPR, Seismic Reflection, Refraction, Surface waves, Gravity and Gradiometer data. Our experience has been gained from processing and interpretation thousands of line kilometers from both large and small projects in the UAE. Our services in Geophysical Surveying include:

- Multichannel Analysis of Surface Waves (MASW)
- Electrical Resistivity Tomography (ERT)
- Ground Penetrating Radar (GPR)
- Seismic Refraction Surveys
- Seismic Data Processing
- Cross Hole
- Down Hole
- Seismic data processing

At Consent We Provide Wide Range of Products such As Kerbstone, Paving Blocks, Granix Tiles, Masonry Blocks, Retaining wall, Blocks and Various Customs Made Precast Element.

We also provide materials on demand.

Kerb Stone

Kerb Stone are produced by the wet press process and conforms to International standard specifications. They are characterized by:

- High flexural and compressive strength.
- High resistance to salt.
- Superior surface finishes
- Dimensional accuracy
- Low water absorption

Various Kerb profile available includes half/full Batter, bull nose and flush.

Sizes

| Length(mm) | Width(mm) | Thickness(mm) |
|-------------|-----------|---------------|
| 540 | 100-150 | 600 |

FUTURE OUTLAND STRATEGIES:

Our objectives and outlooks are:-

- Maintaining a good reputation in the market.
- Maintaining good customer relations.
- Attaining to our clients' needs.
- Effectiveness and efficiency in our work.
- Expanding and establishing new branches.

Moreover we have set up strategies to achieve our goals, briefly they are:-

- Increasing our assets.
- Providing our site with modern equipment annually, to maintain our efficiency and keep-up with work growth.
- Training our Equipment Operators and mechanics, for having the ability to deal with the machines professionally.
- Keeping in touch with our clients.
